

# How To Assemble The 3 Piece Prelit Palm Tree

(Model# 3240-456C)

1. Locate the 4 pole sections.  
a. Shortest section  
b. Middle section  
c. Longest section with consists of 2 pieces.

2. Locate the 3 tree tops.  
a. Small  
b. Medium  
c. Large

3. Locate the base. Each set of base includes 9 wing nuts.

4. Locate the 2 pc pole and place the bottom section onto the center peg.

5. Attach the next 2 poles on the remaining 2 pegs

6. Attached the top section from the 2 pcs pole set to the bottom section.

7. This is the way the poles should look before continuing the assembly process.

8. Attached the smallest top on to the shortest pole.

9. Attached the medium size top onto the middle size pole.

10. Place the largest top onto the tallest pole.

9. On the tallest pole, carefully connect the plugs from the top pole to the lower pole.

10. On all 3 poles, carefully connect the plugs from the pole to the tree top. (For Example Only)

11. Wrap base with burlap cloth that is provided with the tree.

12. Shape the tree top by evenly spreading the green limbs into an arch from the center to the outer end of the limb. Then connect the 3 cord plugs into the outlet to light the tree.

13. The palm tree also comes with 3 yard stakes. These can be used to secure the base of the palm trees for outdoor use.
